

**JOB OPPORTUNITY – Environmental Scientist**  
**VALENTIS – INTERNATIONAL MINING SERVICES COMPANY**

**ABOUT VALENTIS**

Valentis Group is Australian company and leading mineral exploration services provider in Myanmar. Valentis works with a range of local and foreign clients looking to invest in Myanmar's mineral sector. Our key divisions include:

- **Valentis Services** – Valentis Services offers exploration and mining services including exploration program design, program execution, field management, data interpretation and GIS services, drawing on the skill, experience and local knowledge of our combined Australian and Myanmar geological team.
- **Titeline Valentis Drilling Myanmar** – TVDM is a joint venture between Australian company, Titeline Drilling International (from Melbourne, Australia) and Valentis. TVDM provides exploration drilling services in Myanmar and combines a world class exploration drilling service provider with Valentis' in depth market knowledge and expertise in mining services.
- **Valentis Austhai** – Valentis Austhai is a joint venture between Valentis and Austhai Geophysics Consultants (from Bangkok, Thailand) that offers a broad range of specialist geophysical survey services in Myanmar. Valentis Austhai has equipment and trained personnel located in Myanmar and Thailand.
- **Valentis Environmental and Geotechnical Services** – VEGS provides geotechnical engineering and practical environmental management and solutions for all phases of mining and civil projects, from pre-feasibility to design, construction, operation and closure phases.

Valentis is seeking **Environmental Scientist** to join our growing team.

**Key Benefits**

- Working with an international team, with diverse project experience across Myanmar
- Career development opportunities, including attendance at the Valentis developed training programs

**Key Responsibilities (Essential Duties and Functions)**

- Review and assessment of environmental and social risks on client projects.
- Conduct environmental impact assessments on various projects
- Conducting field work in accordance with quality assurance/quality control measures applicable to the task
- Conduct public consultations
- Preparation of environmental management plans
- Providing report summaries and/or critical analysis of reports
- Assisting with report and proposal preparation

### Requirements

- Bachelor's degree
- High proficiency in both written & spoken English
- Proficiency in Microsoft Office and General computing skills
- Master or Diploma in Environmental studies preferable
- In depth environmental and social consultancy experience in similar role
- Experience preparing environmental management plans
- Networks across local industry and Government, in particular the Environmental Conservation Department (ECD) and the Forestry Department
- Strong communication (oral and reporting) and interpersonal skills
- Ability to problem-solve and work independently
- Strong commitment to safety and ethical behavior
